## KEY POINTS

---

### **In most countries, the school year starts at the beginning of September**

Despite some differences, countries across Europe show many similarities regarding the structure of the school year. In around a third of European countries/regions, the school year officially starts on the first of September. In the five Nordic countries as well as in the Netherlands, Switzerland and Liechtenstein, it generally starts between mid- to end August. In Southern Europe, the starting date is usually in the second half of September (e.g. Greece, Italy, Malta and Portugal).

### **The distribution of holidays during the school year varies between countries with the exception of the Christmas break**

In addition to the summer break, there are four other main periods of school holidays across Europe: the autumn holidays, Christmas and New Year's, winter/Carnival holidays as well the spring/Easter holidays. With the exception of the Christmas/New Year's holiday, other school breaks differ both in length and timing. As some of these holidays are related to flexible calendar dates (Carnival and Easter), their timing changes slightly from year to year. As well as these common holidays, all countries offer additional days of holiday for public or religious occasions.

### **Regional and local variations exist within some countries**

The periods and dates of school holidays may vary within a country. In some countries, such as Germany, Spain, Italy, Austria and Switzerland, regional authorities make the decisions in this regard. In Norway and Sweden, the responsibility lies with the municipalities, while in Ireland and the United Kingdom (England and Wales) the school calendar is traditionally decided at school level. However, this freedom to determine school holiday periods may be limited. The number of days of teaching is generally fixed at central level.

In the Czech Republic, France, the Netherlands, Poland, Slovakia and Slovenia, the central authorities fix different dates for some periods of holidays depending on the geographical area.

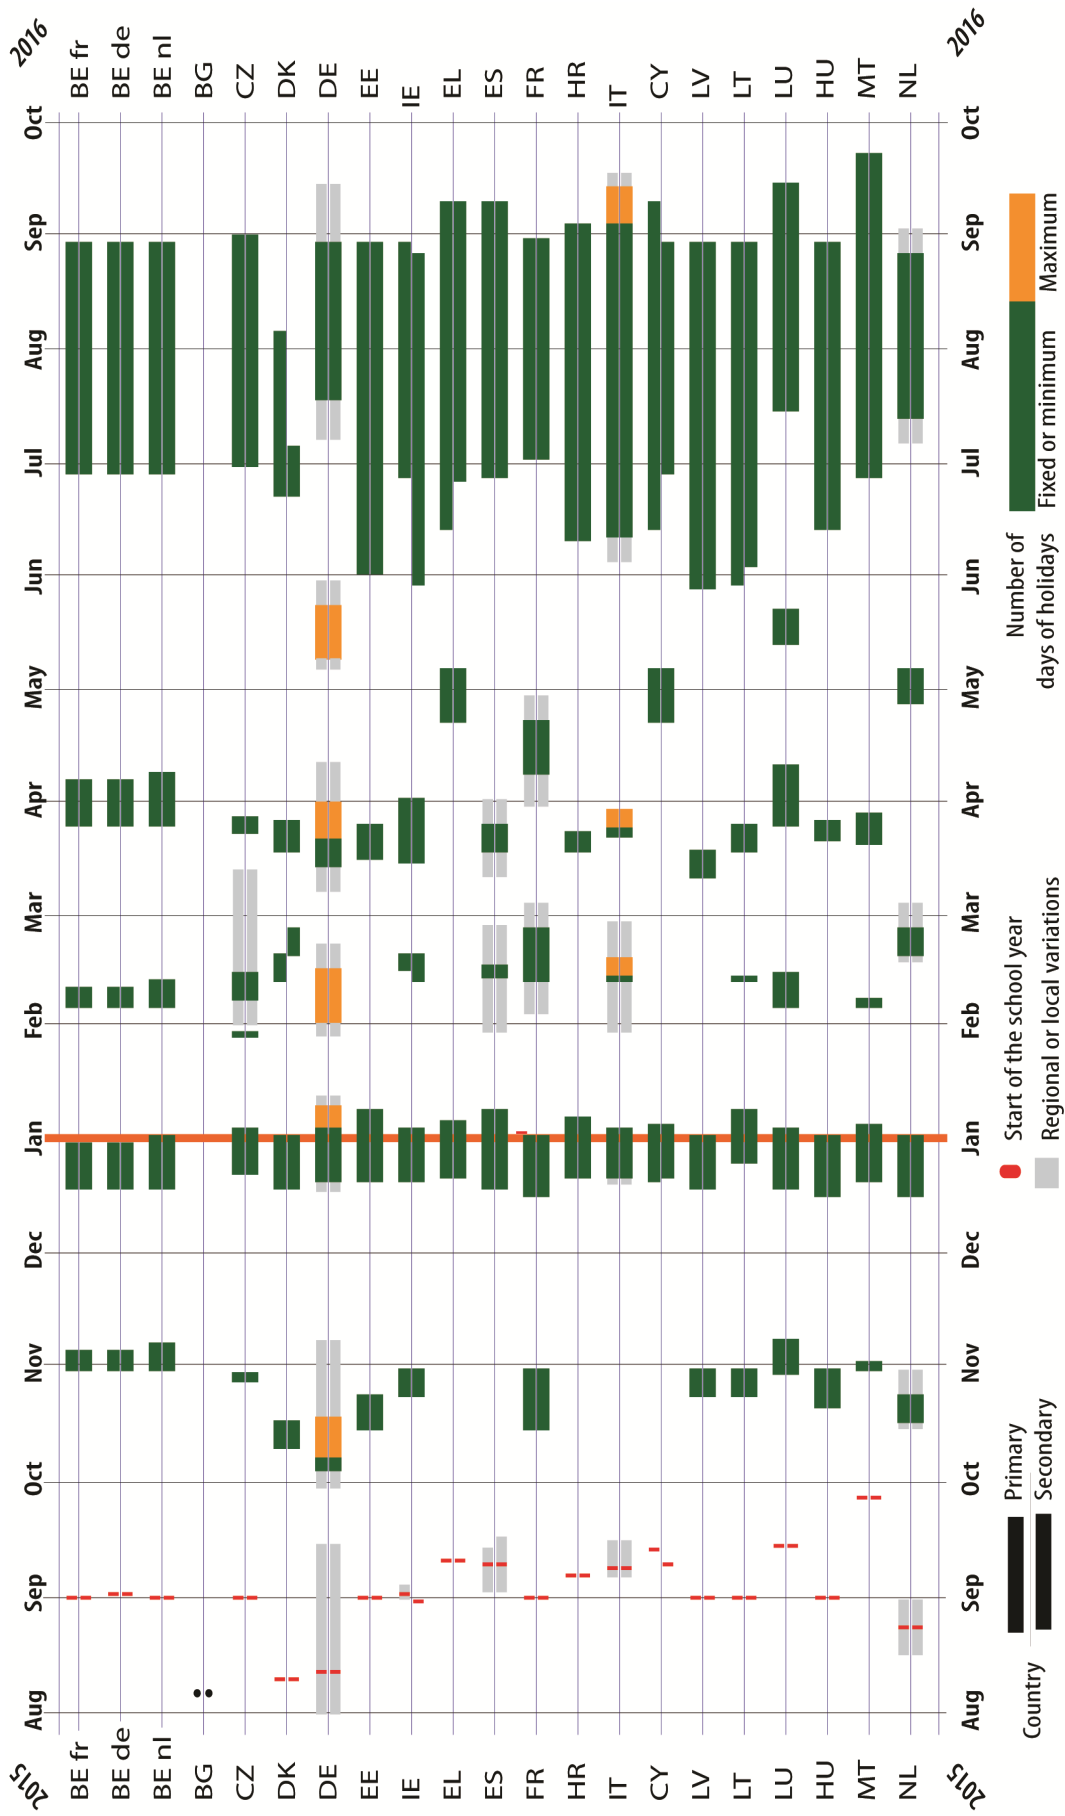

### **The length of the summer holidays varies a lot across Europe**

In Europe, the school year generally ends between the end of May and the second half of July. Mid-June is the time when the summer break begins in most countries. The length of the summer holidays varies significantly between countries: from 6 weeks in some German *Länder*, the Netherlands, the United Kingdom (England and Wales), Switzerland and Liechtenstein up to 13 weeks in Lithuania, Latvia, Italy, Portugal and Turkey. The summer holidays are usually shorter in those countries where students have more frequent and longer holidays during the school year. Some countries show differences in the length of holidays depending on the level of education. In secondary education, students normally study longer, as they might take examinations at the end of the year.

### **Same holiday patterns persist for primary and secondary education**

The pattern of holidays over the school year is similar for both primary and secondary education. Slight differences occur in only a few countries. In Greece, Cyprus, Lithuania and Serbia, the summer holidays for younger students last longer than for older. The opposite is true in Ireland and Iceland.

#### Additional notes:

- During the last working days of August, secondary education teachers may be consigned to conduct exams of a second chance.
- A school year has a minimum of 180 and a maximum of 184 days of school days.
- As the 1 November 2015 is a religious holiday (*Allerheiligen* – All Saints' Day) and at the same time autumn vacation, it is left to the school to choose a compensation day. As the 1 May 2016 is a holiday day, which takes place on a Sunday, schools can choose a second compensation day.

#### Additional notes:

##### Primary Education

**\*Students:** In primary education, lessons begin on the second Monday of September and end on the Wednesday before the penultimate Friday of June.

**\*\*Teachers:** Teachers in primary education need to be at school from the first Monday of September until the penultimate Friday of June.

##### Secondary Education

**\*Students:** Classes may begin on any day during the first ten days of September. The exact date in each year is specified by the Minister of Education and Culture. In Lower Secondary Education, the school year ends on any day during the first seven days of June. In Upper Secondary Education, the school year ends on any day during the last ten days of May. The exact date is also specified by the Minister.

**\*\*Teachers:** In general secondary education, the end of the school year is at the end of June after exams, correction of papers, result announcements. The official teachers' school year is longer than student's school year in secondary education as it includes registration days, sorting out of schools and classes and exam periods. In secondary general education according to the law, the official school year is from 01 September each year until the 31 August next year (01 September 2015-31 August 2016).

### Additional notes:

The above mentioned dates for the *Folkeskole* are valid for the schools in Aarhus Municipality: <http://www.aarhus.dk/da/borger/familie-boern-og-unge/skole/skolerne-i-aarhus-kommune/ferier-og-fridage.aspx> The dates for upper secondary education are taken from Køge Gymnasium: [http://www.kggym.dk/files/4214/2478/5425/Ferieplan\\_2015\\_-\\_2016.pdf](http://www.kggym.dk/files/4214/2478/5425/Ferieplan_2015_-_2016.pdf).

The winter/carnival holiday can vary across the country as it depends on the municipality which usually decides whether the winter holiday is in week 7 or 8.

*Folkeskole*, schools offering comprehensive primary and lower secondary education, are free to decide on the number of holidays and their distribution, given that they offer a minimum of 200 school days each year. The Ministry of Education determines the last day of the school year, which is the case for both primary, lower secondary and general upper secondary education. In addition, the Ministry may also issue guidelines regarding the distribution of holidays.

The Constitution Day (*Grundlovsdag*) 5 June is not a public holiday. However, some schools are closed on this day while others are open.

### Additional notes:

The Basic Schools and Upper Secondary Schools Act (§24) stipulates that an academic year shall start on 1 September and a study period shall include not less than 175 days of study (35 weeks).

School holidays (and accordingly the end of the school year) are determined by a regulation of the Minister of Education and Research for every school year. On the basis of a proposal of the head of the school and with the approval of the board of trustees, the owner of a school may establish school holidays different from those established by the Minister, taking into account that during the academic year there are four school holidays with a total duration of at least 12 weeks, whereby the summer holiday lasts at least eight consecutive weeks.

### Additional notes:

Independence day, Epiphany and 1 May are deducted from the total number of school days (190 days) if they are on any weekday other than Saturday. In the school year 2015/16, the number of school days will consequently be 189.

<sup>(1)</sup> There are no exact starting and ending dates of teachers' school year because their duties are regulated according to the collective agreement for teachers. In the agreement, the parties have agreed that the teachers have a calculatory holiday, which begins in mid-June and the length of holiday depends mainly on years in occupation. In practice, teachers' holidays coincide with students' holidays. However, teachers have their planning and INSET obligations, which they have to do both during and outside the school year. In general teachers start a school year a couple days before students.

### Additional notes:

According to the Act on Public Education, the minister responsible for education specifies the schedule of the school year in a ministerial decree. The Act stipulates that the school year starts on the first working day of September every year and finishes on the last working day prior to 16 June.

Thus schools have no autonomy in changing the first and last day of the school year but they have some autonomy in giving extra holidays before or after public holidays or school holidays for practical reasons (e.g. if a public holiday falls on a Thursday, the school may give Friday as holiday) if they provide teaching on a regular resting day (weekend) instead.

In addition to compulsory school days (181 days in basic schools and 180 days in upper-secondary schools), schools also have five (in basic schools) or six (in upper-secondary schools) non-teaching days for educational purposes.

Holidays at schools providing minority education may differ from the above described school holidays to celebrate national traditions.

\* Act No. XXXIII of 1992 on the legal status of public servants and the Government Decree No. 326/2013 stipulate that the holidays of teachers primarily have to be given during the summer holiday. If not all days can be taken during that, the rest has to be provided during the autumn, winter or spring holidays or teaching days. (For teachers the autumn, winter and spring holidays are regarded as workdays without teaching).

### Additional notes:

#### Primary Education

<sup>(1)</sup> In order to meet the overall requirement of 183 days at primary level, the school year will normally commence in the week that 1 September falls. The exact date is determined locally at Board of Management level.

<sup>(2)</sup> School may use their own discretion to determine the precise ending of the school year in June, providing it has met the overall requirement of 183 days.

<sup>(3)</sup> Primary school may use 3 discretionary days to extend their Winter/Carnival break to an alternative option of a 5 day break.

Circular 0016/2014 sets out the standardised school breaks at primary and post-primary level for the school years 2014/15, 2015/16 and 2016/17.

## IRELAND (CONTINUED)

---

The arrangements for standardised closure at primary level (Circular 0016/2014) are agreed without prejudice to closure on specific days, within the overall requirement of 183 days at primary level, dictated by religious observance that is required in schools under patronage of different denominations or faiths. In the absence of an adequate number of discretionary days a school authority may choose to utilise a religious observation day for non-tuition purpose when planning the school year.

The existing arrangements for school breaks may provide some limited flexibility to schools on certain other days outside of the defined periods. The scheduling of such days must not be used to extend or modify the period set out above in respect of mid-term, Christmas and Easter breaks save where a school has been affected by extensive or prolonged school closures or religious observance requirements of a school under a particular patronage makes this necessary.

It was not a requirement of this agreement that the commencement or end of the school year either at primary or post primary level should be standardised.

### **General Secondary**

In accordance with Circular M29/95, the minimum number of teaching days per post-primary school will be 167. In addition, in accordance with Circular 0016/2014, holiday periods during the school year have been standardised, i.e. midterm breaks, Christmas and Easter holidays. Traditionally, formal instruction ends in post-primary schools on the Friday preceding the June bank holiday weekend. State examinations normally commence the following Wednesday. In order for schools to meet their requirement to be open for 167 days during 2015/16 school year, it is expected that post-primary schools will be open circa the 31 August 2015.

The above holidays are standardised in accordance with Circular 0016/2014. The school year at post-primary level is very tight and does not allow for any additional holidays, as schools must comply with the minimum number of 167 days. In fact, in recent years, since the standardised school calendar, many schools which would have traditionally opened on the 1 September are now opening in late August in order to meet their full complement of days. There is more flexibility at primary school level, as they are not restricted by the end of year State exams.

### Additional notes:

Schools can adjust the school calendar, established by the Regions, to the POF's requirements (the POF is the basic document of the cultural and planning identity of each school. It defines the curricular, extra-curricular, educational and organisational projects of each school). Schools can organise in a flexible way the overall and single-subject timetable, provided that lessons spread over a minimum of five days per week and that the prescribed number of hours for the single subjects is complied with. The school year begins between the 2nd and the 4th week of September and finishes between the 1st and the 3rd week of June. The school adaptations of the school time should guarantee at least 200 days of lesson in the school year.

According to school autonomy, schools have up to 5 or 6 days available, which are foreseen for the suspension of educational activities.

### Additional notes:

Single structure compulsory education (integrated primary and lower-secondary education (*pamatizglītība*)): end of the school year for the 9th class: 10 June 2016.

Upper secondary education: end of the school year for the 12th class: 17 June 2016.

The school year is divided in two semesters: the first from 1 September to 18 December 2015 and the second from 4 January to 30 May 2016 (or 10 June for the 9th class and 17 June for the 12th class).

Education institutions decide when to carry out an additional 1 week long holidays in the second semester for the 1st class.

Education institutions decide when to carry out a 1 week long project week in the second semester.

Extension of the school year for classes 1-8 and 10-11 may be made if specific circumstances hindering education process arise during the school year (e.g. extreme temperature, strike, emergency situation in school, etc.).

**Holidays (summer 2015):** These are the dates for the official summer holiday period for classes 1-8 and 10-11.

**Public holidays:** When the specific holidays of 18 November (Proclamation of the Republic of Latvia) and 4 May (Restoration of Independence of the Republic of Latvia) fall on Saturday or Sunday, the holiday is transferred to the next working day.

**Teachers:** The teachers' school year concurs fully with students' year, but normally is longer and starts earlier, though the end and the start date is not defined officially. Teachers have the right to receive 8 weeks of paid annual leave in summer.

## Additional notes:

\* The end of students' school year in grade 5 (first year of lower secondary education) is on 31 May 2016 and in grade 12 (last year of upper secondary education) is on 26 May 2016.

\*\* Additional 10 days holidays are allocated to pupils of grades 1 to 5. It is required that the school agreed additional holidays with parents and school council. At national level, it is recommended that additional holidays would coincide with 6-12 grades winter holidays.

\*\*\* Summer holidays for students in grade 5 start on 1 June 2016 and in grade 12 on 27 May 2016.

\*\*\*\* The annual amount of leave for **teachers** is legislated as 56 calendar days. Normally, it is recommended that teachers take their annual leave during school summer holidays (i.e. teachers' leave is normally determined by the school calendar).

## The Netherlands (continued)

---

### **Additional notes:**

The school year officially runs from 1 August to 31 July of the following year. The start and end of the school year of the individual schools is according to the region (Northern, Central and Southern region).

Dates for the **summer holidays** are decided by the Ministry of Education, Culture and Science; the holiday period is staggered over 3 regions (compulsory dates for all schools); also dates for Christmas holidays and May holidays (one week) are decided by the Ministry; other holidays are recommended by the Ministry.

A balanced distribution of teaching time is important in the Netherlands. Schools have the opportunity to deviate from the recommended data, but they have to take into account the wishes and expectations of the parents/caregivers. The Primary Education Act requires schools to provide at least 7,520 teaching hours over the eight years that children attend school.

- \*) In the Netherlands Carnival holiday is called Spring Holiday or Crocus Holiday
- If the recommended period for the Spring Holiday does not fit with Carnival week; it can be expected that schools, especially in the Southern areas of the Netherlands, will not follow the recommendations and will close for Carnival.

The **teachers'** school year is similar to the students' school year. However, it is at the school's discretion to decide whether teachers are expected to end or start later (in order to attend meetings, for preparation of timetable, other non-teaching activities etc.)

### **Additional notes:**

For the primary schools can the municipality decide individually the school holidays, as the counties can decide for the upper secondary schools.

The teachers' work during the school year is counted in working hours. That is 1300 hours for primary education (ISCED 1), 1225 hours for lower secondary education (ISCED 2) and 1150 hours for upper secondary education. It is an individual matter for each school if the work hours, longer than for the students, are before the beginning or after the end of the school year.

**Additional notes:**

1. The schools and the School Inspectorates will mark with specific events the following days:

- 5 October 2015 = World Teachers' Day
- 5 June 2016 = Primary Teacher's Day

2. The week 18-22 April 2016 in the second semester is dedicated to extracurricular and extra-school activities, within the programme *Other kind of school: Know more, Be better!* [*Școala altfel: Să știi mai multe, să fii mai bun!*], with a specific timetable.

3. In exceptional situations, depending on the local climatic conditions and school's specificity, the organisation of the school year can be modified at the request of schools, approved by the regional education authorities (County School Inspectorate). Approval is given if the number of 175 school days (36 weeks) is maintained and all pupils may participate without restrictions in national examinations.

### Additional notes:

Official school year lasts from 1 September to 31 August. If 2 September falls on a Friday, Saturday or Sunday starting date of school year is next Monday.

According to the Labour Code, teachers and school heads at primary and secondary levels have 8 weeks of holidays per calendar year. They take it during the holidays. Usually, teachers work one week after beginning of summer holidays and one week before the beginning of the school year.

#### **Additional notes:**

Slovenia has a single structure compulsory school of nine years.

For students, the school year officially runs from 1 September to 31 August, however, the lessons end in June.

For teachers, the school year begins 10 to 15 days before the students start school and lasts until the beginning or mid-July. The precise length depends on the days of annual leave allocated to an individual (22 to 35 days) and tasks and obligations appointed by the school head.

### Additional notes:

According to Switzerland's federal structure, the starting date / end of students' school year (for details see table I) and school holidays vary between cantons, in some cantons even between municipalities (for details see table II).

With a few exceptions the teachers' official school year starts August 1st and ends on 31 July. However, it is at the school's discretion to decide whether teachers are expected to start or end later (in order to attend meetings, to prepare for teaching, etc.).

The only national holiday is August 1st (National Day). All other public and religious holidays are fixed by the cantons. New Year's Day, Ascension and Christmas Day are the only holidays all cantons have in common. In most cantons Good Friday, Easter Monday, Whit Monday and Boxing Day are also official holidays.

#### Additional notes:

In primary and general secondary education, a school year must contain at least 180 days. A school year runs 9 months from September to June.

A school year is divided into two parts: at the end of a semester, there is a two-week holiday, called mid-school year holiday. The summer holidays are between June and September. Decisions on ending/starting semester dates are made by the Ministry.

## UNITED KINGDOM – ENGLAND AND WALES (CONTINUED)

---

### **Additional notes:**

Traditionally, the school year is divided into three terms, each of which is divided into two half terms separated by a half term holiday. The dates of school holidays are normally planned to take into account and cover most national public holidays including Easter, although a minority of schools operate a standardised year.

The length of the school year, 380 half day sessions, is laid down centrally but the actual dates are not. These are set, depending on the legal category of the school, by the local authority (LA) or school governing body. The decision is taken at school level in voluntary aided schools and foundation schools. Otherwise LAs regulate the school year, and the table shows the most common patterns for term dates and holidays set by LAs.

Teachers are required to be available for five additional days when pupils are not present, i.e. for 195 days in total.

In England, the recent growth in the number of academies means that approximately 70 per cent of secondary and 30 per cent of primary schools in England are responsible for setting their own term dates. Academies and free schools also have responsibility for determining the length of their school year.

Some English local authorities have recommended that schools with a significant number of pupils who will be celebrating non-Christian religious festivals (for example Eid-UI-Adha, Eid-UI-Fitr, Guru Nanak's birthday, Diwali) should consider making these optional closure days.

In March 2014, the Welsh Assembly passed legislation (the Education (Wales) Act 2014) which will require local authorities and school governing bodies to co-operate and co-ordinate with each other to ensure that the dates for the school term are the same (or as close as possible to being the same) for every maintained school in Wales. It also gives Welsh Ministers the power to direct local authorities and the governing bodies of voluntary aided and foundation schools on the term dates they set. This is to achieve harmonisation of school term dates if local authorities and the governing bodies of voluntary aided and foundation schools have been unable to agree on term dates, or if the term dates which have been agreed need to be altered. As school term dates are set at least two years in advance, the first harmonised term dates will be for the year 2016/2017.

#### Additional notes:

Schools are required to be in operation for 200 days. The number of days that pupils are taught in the classroom may vary from 185 to 190 days when optional closing days, teacher training days and School Development Days (SDDs) are taken into account. Decisions on when to take these days are set, depending on the legal category of the school, by the Education Authority or boards of governors. The five optional closing days may be taken as an extension to the Easter, Christmas or summer holidays or to cover closure in exceptional circumstances, for example, the death of someone connected with the school or a planned event such as a move to new premises/building work or a religious holiday. Teachers are required to be available for work on 195 days, of which no more than 190 days should involve teaching children in the classroom. The remaining five non-contact days are used for training purposes. Schools may also avail themselves of up to five School Development Days (SDDs) for the purpose of school improvement and school/staff development. For further information see [Circular 2013/09](#).

### Additional notes:

In Scotland, pupils attend school for 190 days a year. The teachers' school year is longer by 5 in-service days (195 days).

As school holidays (and in-service days) are not fixed nationally, but by each of the 32 local education authorities, term dates vary from one authority to another. There are no differences between primary and secondary schools.

The Eurydice Network's task is to understand and explain how Europe's different education systems are organised and how they work. The network provides descriptions of national education systems, comparative studies devoted to specific topics, indicators and statistics. All Eurydice publications are available free of charge on the Eurydice website or in print upon request. Through its work, Eurydice aims to promote understanding, cooperation, trust and mobility at European and international levels. The network consists of national units located in European countries and is co-ordinated by the EU Education, Audiovisual and Culture Executive Agency.
